Administrative Order NSL-102

Attention: Mr. De Lasso Loos

Gentlemen:

Reference is made to your application for approval of an unorthodox well location for your Northeast Blanco Unit Well No. 35-19 to be located 1500 feet from the South line and 1800 feet from the East line and in the NW/4 SE/4 of Section 19, Township 30 North, Range 7 West, Blanco Mesaverde Gas Pool, Rio Arriba County, New Mexico.

It is our understanding that this unorthodox well location is based upon extreme topographic conditions and the location of the San Juan Dam in the East half of said section.

Inasmuch as you furnished waivers from the offset operators, it is possible for immediate approval to be granted. Therefore, by authority granted me under provisions of Section 1 (c) of the Special Rules and Regulations of the Blanco Mesaverde Gas Pool, as set forth in Order R-110 as amended by Order R-397, you are hereby granted an exception to Section 1 (c) of Order R-110 for the above described unorthodox well location. You must also obtain like approval from the U. S. Geological Survey.

Very truly yours,

A. L. PORTER, JR.
Secretary-Director
