Oil Conservation Division 2040 South Pacheco Santa Fe, NM 87505

Attention: Mr. Mike Stogner

RE:

Application for Administrative

Approval of Unorthodox Location

Carlsbad State Com #1 2140' FNL & 990' FWL Section 16-22S-27E Eddy County, New Mexico

Dear Mike:

Marbob Energy Corporation (Marbob) hereby makes application pursuant to Oil Conservation Division Rule 104.F(2) and Rule 104.D(2) for administrative approval to recomplete the above referenced Carlsbad State Com #1 in the Wolfcamp formation.

When initially drilled the location was orthodox at both a Morrow and Strawn completion. Since that time the set back requirements have been changed. At the adoption of the new requirements, the Carlsbad State Com #1 was a Morrow producing well and therefore was grandfathered. The Morrow formation in the Carlsbad State Com #1 well is depleted and the Strawn formation is non-commercial. Approval was granted for an unorthodox Strawn completion which was unsuccessful. The Artesia OCD office advised us that approval for an unorthodox Wolfcamp completion is required. Marbob Energy requests that approval be granted for the unorthodox Wolfcamp completion in this well.

The Carlsbad State Com #1 well's proration unit is the west half of Section 16. Exhibit "A" is a plat showing the existing well and proration unit. Marbob is the only affected offset operator. All adjoining proration units are identified on Exhibit "B" with offset operators listed on Exhibit "C". Each party listed has been notified and supplied with a copy of this application.

Sincerely, Bays Mille
