Midland, Texas

Attention: Mr. N. F. Gullette

Administrative Order NSL-227

Gentlemen:

Reference is made to your application for approval of an unorthodox well location for your State 157 "D" Well No. 7 to be located 330 feet from the South line and 2310 feet from the West line of Section 12, Township 22 South, Range 36 East, Eumont Gas Pool, Lea County, New Mexico.

It is our understanding that this unorthodox well location is occasioned by the recompletion of a well previously drilled to another horizon.

By authority granted me under provisions of Order R-1670, you are hereby granted approval for the above described unorthodox well location. You must also obtain like approval from the U. S. Geological Survey if the well is located on land subject to the jurisdiction of the U. S. Geological Survey.

The approval herein granted is contingent upon your plugging back the said State 157 "D" Well No. 7 so that the lowermost perforations will be above the base of the Queen formation.

Very truly yours,

A. L. PORTER, Jr.,  
Secretary-Director
