Section 13 T-17S R-29E
Eddy County, New Mexico

2007 JAN 26 AM 10 41

Dear Mr. Gumm:

Marbob Energy Corporation respectfully requests administrative approval for an unorthodox location of the Burch Keely Unit #976 well as referenced above. Attached is an OCD Form C-102 showing the proposed oil well spacing unit along with a map showing the adjoining spacing units. The well is unorthodox to the north boundary of the NW/4SW/4. The affected spacing unit is included in the Burch Keely Federal Unit which covers all of Section 13. Notice has been provided to the operator and working interest owners of that unit and notice has been provided to operator of spacing units in Section 14 (Marbob Energy Corporation).

This location will also increase our secondary/tertiary flood pattern options and give us more flexibility to modify or change flood patterns in the future to maximize oil recovery from this unit.

Thank you for your consideration of this. If you need to talk with me further please call me at 800-748-1550.

Sincerely,

Raye Miller

Eddy County, New Mexico**

Dear Mr. Miller:

I have before me your request for approval for a non-standard location for this well.

Your application states that "the affected spacing unit is included in the Burch Keely Federal Unit which covers all of Section 13." To document compliance with applicable notice requirements for this application, please specifically confirm that Marbob is the operator of the Burch Keely Unit, and that under the applicable terms of the Unit Agreement and Unit Operating Agreement, production is shared in the same proportions in the SW/4 NW/4 as in the NW/4 SW/4 of Section 13.

Should you have questions, please feel free to call the undersigned at (505)-476-3450.

Very truly yours,

David K. Brooks,

Re: Burch Keely Unit #976
L-13-17S-29E
Eddy County, New Mexico

Dear Mr. Brooks:

Marbob Energy Corp. is the operator of the Burch Keely Unit in section 13 and is also the operator of the Dodd Federal Unit in Section 14. The production in the SW/4NW/4 and the NW/4SW/4 is allocated under Burch Keely Unit agreement whereby either proration unit is neither increased or decreased by this unorthodox location since all of the production is allocated under the approved formula.

Please do not hesitate to contact us should you have any questions or need further information. Thank you for your consideration.

Sincerely,

William Miller
Landman
