AIR MAIL

Mr. A. L. Porter, Secretary-Director
New Mexico Oil Conservation Commission
P. O. Box 2088
Santa Fe, New Mexico

Dear Mr. Porter:

Under Rule 104D, Section 2F, sub-Section 3, of New Mexico Oil Conservation Commission Rules and Regulations, Ralph Lowe respectfully requests approval of a location for a Penn Test to be located ~~880~~ feet from the south and west lines of Section 25, T-21-S, R-23-E, Eddy County, New Mexico. This location is in the Indian Basin Gas Field.

The necessity for this location results from topographical conditions. The regular 1,650-foot location requires approximately \$7,007 of added cost for preparation over the 880-foot location. In addition, the 1,650-foot location falls within twelve feet of the high pressure gas gathering line for the field. The application for permit to drill and plat are enclosed. Also enclosed are copies of the estimates of cost for the location preparation.

Offset operators have been notified of this request by copies of this letter. Registration numbers for these letter-notifications are enclosed.

Sincerely,

RALPH LOWE

C. W. Murray,
Agent

MESSAGE

TO M. L. Armstrong
Oil Conservation Commission
Artesia, New Mexico

DATE October 6, 1965

Mose - Harve Landua with Ralph Lowe has
filed an application for an unorthodox
location 880' from the South
and West of Section 25-21-23, Indian
Basin, for topographical reasons.
Please have the location inspected
and let us know what you think.

A. L. Porter, Jr.

BY

INSTRUCTIONS TO SENDER:

1. KEEP YELLOW COPY. 2. SEND WHITE AND PINK COPIES WITH CARBON INTACT.

REPLY

DATE October 8, 1965

I inspected Ralph Lowes location 1650' S &
found it is 12' from a high pressure
gas line. Their 880' S & W is o.k. but
they could have moved their location
150' SW instead of 770' SW. I think I
understand why Sinclair has a dry hole /
location North. They have the 880'
location partly leveled but wasn't working
when I was there.

SIGNED

M. L. Armstrong
INSTRUCTIONS TO RECEIVER:

1. WRITE REPLY. 2. DETACH STUB, KEEP PINK COPY, RETURN WHITE COPY TO SENDER.

Time of Departure 1:00 P.M. Time of Return 3:45 P.M.

Miles Travelled 92

In the space below please indicate purpose of trip and duties performed, listing wells or leases visited.

Inspected a location for Ralph Lowe 1650'S 1650'W. This location comes just 12' from a high pressure gas line. They want to move it to a 880' S & W location. I see no reason why they would have to move it this far as there is a level location 150' SW of the original location.
