Re: Unorthodox Location:
W $\frac{1}{2}$ Sec. 27, T-26N, R-1W
Canada Ojitos Unit
Puerto Chiquito Pool
Rio Arriba County

Gentlemen:

We propose to drill a Mancos Formation test well in the west half of Section 27, Township 26 North, Range 1 West, Rio Arriba County. Because of the rough terrain in this area, we plan to drill the well at an unorthodox location. This location is 1415 feet from the south line and 740 feet from the west line of the section. A plat of the proposed location and a plat showing the topography are attached for your information.

All land within one mile of the location have been committed to the Canada Ojitos Unit.

We hereby request approval of the New Mexico Oil Conservation Commission that this well be drilled at the above described unorthodox location.

1. Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
2. If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty).
3. If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communization, unitization, force-pooling, etc?
☐ Yes ☐ No If answer is "yes," type of consolidation _____

If answer is "no," list the owners and tract descriptions which have actually consolidated. (Use reverse side of this Form if necessary.) _____

No allowable will be assigned to the well until all interests have been consolidated (by communization, unitization, forced-pooling, or otherwise) or until a non standard unit, eliminating such interests, has been approved by the Commission.
