Non Standard Gas Well Location

Gentlemen:

H. L. Brown, Jr. respectfully requests administrative approval for a
non-standard gas well location for the subject well.

This well was drilled by us as a Devonian test and plugged and abandoned
in April of this year. It is now our intention to re-enter this hole
and attempt to complete as a Pennsylvanian gas well.

Attached with this request is a copy of a plat showing the proposed
location and proration unit and ownership of all offsetting leases.

Copies of this application have been sent to the offset operators, all
of which have indicated their approval of this request.

Yours very truly,

H. L. BROWN, JR.

B. D. Baker
