ATTN: MR. WILLIAM J. LEMAY

Dear Mr. Lemay:

Amerada Hess Corporation requests approval to drill and complete the State 'J' Gas Com #7 in an unorthodox location and simultaneously dedicate the well to the State 'J' Gas Com lease. The well will be unorthodox by virtue of being less than the required 330' from a quarter-quarter section line and less than 1320' from the existing AHC State 'J' Gas Com #4. A standard drilling location was not possible due to the close proximity of the well to the AHC NMGSAU #1805. Since the location was moved toward the interior of the lease, correlative rights will not be effected by the relocation of the drill site.

NSL-749
The AHC State 'J' Gas Com lease was approved as a non-standard proration unit under orders NSP-269 and NSP-749 approving 440 acres consisting of the S/2, S/2 NW/4 and the NE/4 NW/4 Section 2, T-20S, R-36E. The proration unit was originally dedicated to the State 'J' Gas Com #4, located 1980' FSL and 2081' FWL.

A map depicting offset Eumont completions and respective proration units, a sample copy of the waiver request, an offset operator list and a plat of the subject well and proration unit are attached. A copy has been forwarded to Jerry Sexton, Hobbs NMOCD Director. In addition, a notification and waiver were forwarded by certified mail to the offset operators on the offset operator list.

Sincerely,

Randall L. Howell
Sr. Petroleum Engineer
