Due to Topographical conditions

Monsanto Company

Foster Federal Well No. 1 Undesignated Morrow Pool 1980' FWL and 600' FSL Section 31, T-19S, R-25E Eddy County, New Mexico

JUN 14 1976

Gentlemen:

Monsanto Company respectfully requests your approval to drill the subject well at an unorthodox location, 60' due South of the orthodox location, under the provisions of Rule 104 (f). This request is necessitated by the proximity of a public road to the orthodox location.

As shown on the attached plat, the proposed location is 1980' FWL and 600' FSL of Section 31, T-19S, R-25E, Eddy County, New Mexico. The subject well is proposed to be a single Morrow completion with the S/2 Section 31 dedicated to the well.

The following items supporting this request are herein submitted in triplicate:

- 1. Form C-102, Well Location and acreage Plat.
- 2. Form 9-331C (Federal Form), Application to Drill, Deepen or Plug Back.
- 3. Plat showing the topographical features.
- 4. Plat showing offset operators.
- 5. Address List of offset operators.

A copy of this letter and attachments is being sent to each offset operator, by certified mail, requesting waiver of objection to the proposed unorthodox location.

Yours very truly

Regional Production Mgr.
