RE: Non-Standard Gas Well Spacing  
1650/N 630/E Sec 14-21S-22E  
Eddy County, New Mexico

Dear Sir:

*1650' ANL & 630' FEL*

Yates Petroleum Corporation seeks administrative approval of a non-standard gas well location for its Hilliard "BF" Federal No. 1, a re-entry and deepening, now completed in the Morrow. The well was originally drilled to the Canyon formation, tested dry and plugged.

The well site is on the west side of a ridge with a steep dip into Stinking Draw, see topographic plat attached hereto. A lease ownership plat is also enclosed, and offset operators are notified by copy of this application.

Yours very truly,

YATES PETROLEUM CORPORATION

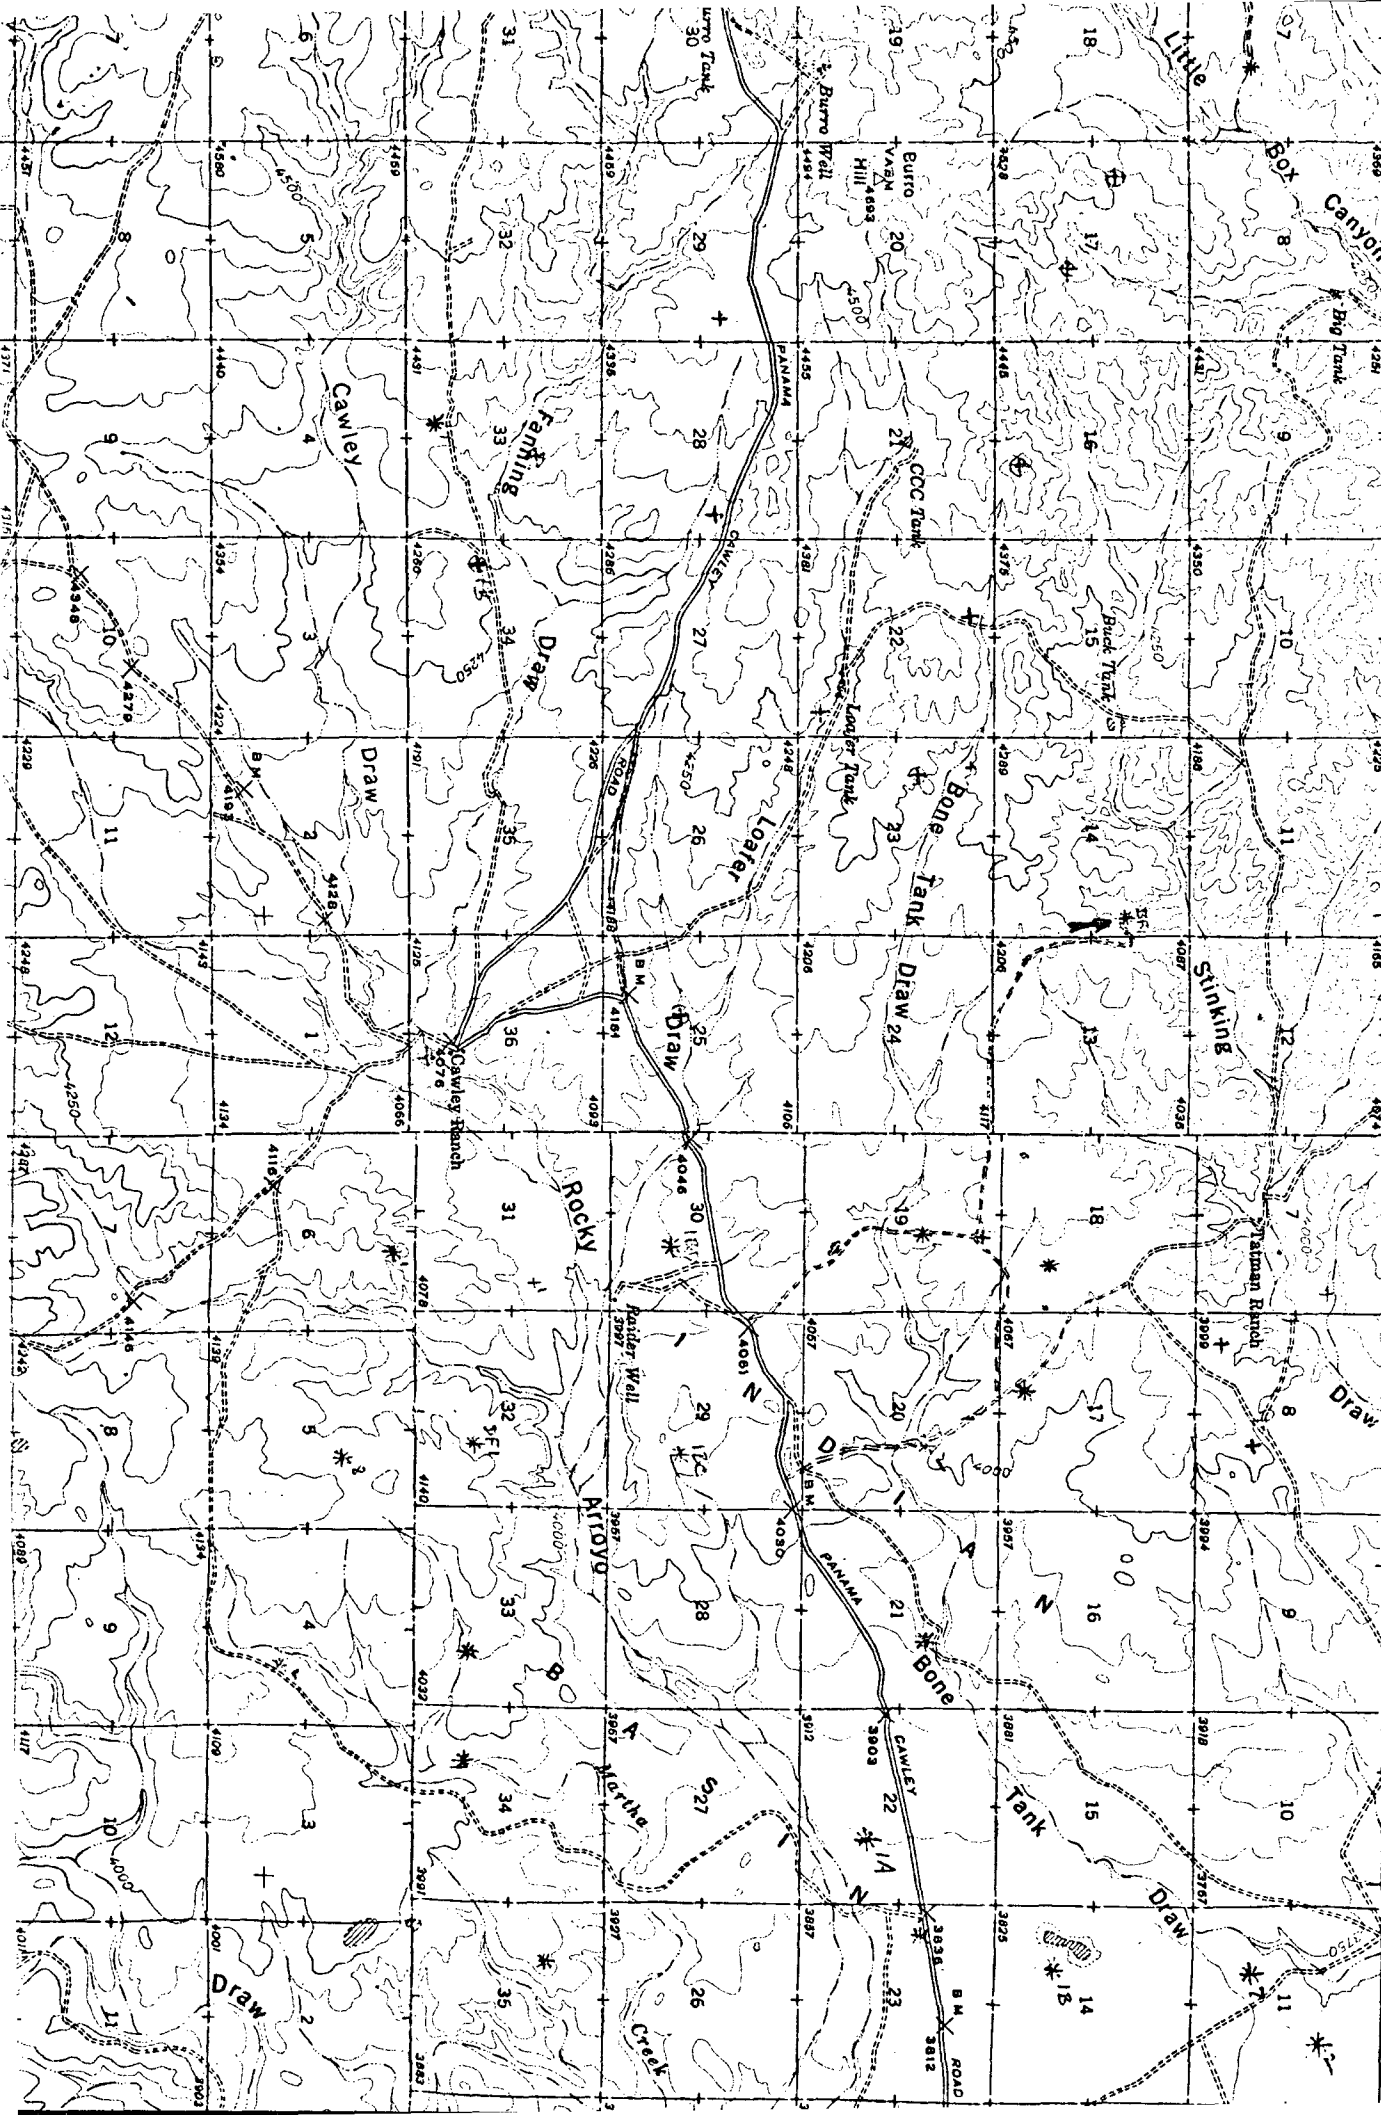

*Eddie M. Mahfood*

Re: Non-Standard Gas Well Spacing  
1650/N 630/E, Sec. 14, 21S-22E

-----  
No. Arroyo NM-135  
Eddy County, New Mexico

Dear Sir:

This is to advise you that Inexco Oil Company has not and does not object to the request of Yates Petroleum Corporation to you in its letter of November 24, 1976.

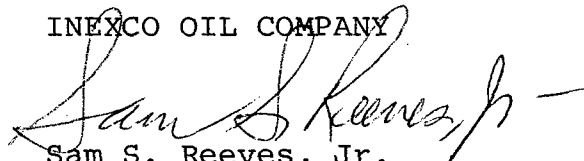

Such written response may not actually be required except where parties wish to object to non-standard spacing, but it seems appropriate to me to comment.

This notice was received by a technical division of the Company who voiced no objection and referred this to me today for handling.

If you require anything further, please advise me.

Yours very truly,

INEXCO OIL COMPANY
