## SABINE PRODUCTION COMPANY SUITE 200 / 619 WEST TEXAS STREET MIDLAND, TEXAS 79701 PHONE (915) 683-5607 February 25. 1977 FEB 23 1977 THE CONSERAR LION COMM Request for Administrative Approval Non-Standard Gas Well Location Sabine Production Com Mr. Daniel Nutter Oil Conservation Commission P. O. Box 2088 Santa Fe, New Mexico 87501 Re: #1 No. Eidson Fee located 660' from S&W Lines of Sec. 34, T-15-S, R-34-ELea County, New Mexico

Dear Mr. Nutter:

The subject well was originally staked as a Pennsylvanian wild-cat anticipating an oil well and 40\* acres was dedicated to it. However, the well was completed from the Morrow formation with a CAOF of 4374 MCF of gas and with gas liquid ratio of 26.4 (gravity of gas .620, gravity of oil 57°).

We are now dedicating W/2 of Section 34 (320 acres) and respectfully request that the Commission approve this location without a hearing so that the much needed gas may be produced as soon as possible. We feel that this approval will not interfere with orderly development of the Unit with subsequent standard locations.\*

Yours very truly,

().M. klung

O. M. SALMAN Division Manager
