Re: Application for Unorthodox Location  
for Tenneco - Pritchard No.4A, San  
Juan County, New Mexico

Dear Sir:

In accordance with Rule 104D II (F) Tenneco hereby requests administrative approval for an unorthodox location for our Pritchard Well No.4A located 1705'FWL and 1830' FML of Sec. 31, T29N, R8W San Juan County, New Mexico. This location spots the well 410' west of the east boundary line of the dedicated proration unit.

An extensive on the ground inspection was made at the time of staking. Because of the topography and the need to drill this well far enough away from the old well to properly drain the Mesa Verde formation, this is the only suitable location for the well to be drilled. Please note the shortness of the top of this half section on the surveyors plat. (28.26 chains = 1865.16')

A copy of our application has been submitted to all offset operators by registered mail with a request that they furnish your office with a waiver of objection.

We respectfully request your approval of our application.

Yours very truly,

TENNECO OIL COMPANY

  
D.D. Myers  
Division Production Manager

Letter of Waiver

\_\_\_\_\_ hereby waives all objections to Tenneco's  
application for an unorthodox location for their Pritchard No.  
4-A as proposed above.
