Re: H. T. Mattern (NCT-C) 12
Unit E, Sec 8, T21S-R37E
Lea Co., NM
Request administrative approval
to establish a 160 acre-non-
standard Tubb Gas Proration Unit

Mr. Joe D. Ramey
NMOCC
P. O. Box 2088
Santa Fe, NM 87501

Dear Sir:

Gulf Oil Corporation requests your administrative approval to assign to the subject well a 160 acre-non-standard Tubb Gas Proration Unit, consisting of units E, F, L, & M of Section 8, T21S-R37E, Lea County, New Mexico. The H. T. Mattern (NCT-C)#12 well is located in Section 8, 2310' from the North line and 660' from the West line and is currently producing from the Drinkard pay.

In support of this application the following facts are submitted:

1. There are no other wells producing from the Tubb Gas in this proposed 160 acre-non-standard proration unit.
2. The attached plat shows the proposed 160 non-standard proration unit and all offsetting operators.
3. All offset operators have been furnished a copy of this application.

Please note that the above is a corrected request for your administrative approval, in response to Mr. R. L. Stamet's letter of October 31, 1977.

Yours very truly,

By: D. F. Berlin

Re: H. T. Mattern (NCT-C)
Well No. 12-E, Sec. 8, T-21-S,
R-37-E, Lea County, New Mexico

Dear Mr. Berlin:

The plat which accompanied your application of October 26, 1977, for approval of a non-standard Tubb gas proration unit for the subject well was not sufficiently legible to read the names of the offset operators. Please submit a legible plat. Further, it should be noted that those operators owning the acreage offsetting the proposed non-standard unit are those who are to be notified. It appears you may have sent notice to the owners of the nearest producing Tubb gas wells instead of the offset owners as described above.

Very truly yours,

R. L. STAMETS
Technical Support Chief
