June 19, 1998

ARCO Permian
P. O. Box 1610
Midland, Texas 79702-1610
Attention: Elizabeth A. Casbeer

Administrative Order NSL-915-B

Dear Ms. Casbeer:

Reference is made to your application dated May 20, 1998 for an unorthodox oil well location in the Artesia-Queen-Grayburg-San Andres Pool for ARCO Permian's existing Washington "33" State Well No. 26 (API No. 30-015-22464), located 150 feet from the South line and 1650 feet from the West line (Unit N) of Section 33, Township 17 South, Range 28 East, NMPM, Eddy County, New Mexico. The SE/4 SW/4 of Section 33 is to be dedicated to the well in order to form a standard 40-acre oil spacing and proration unit in oil producing formations.

Division records indicate that the well was drilled in 1978 as the Empire Abo Unit "H" Well No. 301 to a total depth of 6,378 feet and was completed within the Empire-Abo Pool at an unorthodox oil well location approved by Division Administrative Order NSL-915, dated January 16, 1978.

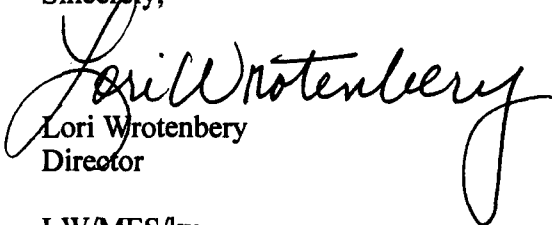

It is our understanding that the Abo interval will be properly plugged back at this time and the shallower Artesia-Queen-Grayburg-San Andres Pool up-hole will be tested.

The application has been duly filed under the provisions of Rule 104.F of the General Rules and Regulations of the New Mexico Oil Conservation Division.

By the authority granted me under the provisions of Division General Rule 104.F(2), the above-described unorthodox oil well location is hereby approved.

That portion of the original Division Administrative Order NSL-915 approving the unorthodox Empire-Abo oil well location for the Empire Abo Unit "H" Well No. 301 shall be placed in abeyance until further notice.

Sincerely,

Lori Wrotenbery
Director
