Re: Request for Administrative Approval  
Of Unorthodox Location -  
Yates Federal "A" Com Well No. 1  
Undesignated Morrow  
Eddy County, New Mexico

OFFSET OPERATORS TO AMOCO PRODUCTION COMPANY'S  
YATES FEDERAL "A" COM WELL NO. 1

Gentlemen:

Amoco Production Company respectfully requests your approval of an unorthodox location for our Yates Federal "A" Com Well No. 1, located 660' FNL and 660' FEL, Unit A, Section 21, T-19-S, R-24-E, Eddy County, New Mexico.

The original orthodox location was located 1,980' FNL and 660' FEL, which placed the well in a ravine, as shown on the attached topographical map. We moved the well to the north 1,320 feet to get out of the ravine for a suitable drillsite. We are asking for New Mexico Oil Conservation Commission approval based on topographical conditions.

Please indicate your approval of our application by signing two of the enclosed copies and returning one to us and the other to the New Mexico Oil Conservation Commission. Envelopes, which have been addressed and stamped, are attached for your convenience.

Yours very truly,

*V.E. Staley*

Gentlemen:

I have examined the application dated 2-14-78  
for the Amoco Prod. Co. Gates H Federal Com #1- A- 21-19-24  
Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

A standard location for this well falls in the bottom of a  
draw and it could possibly be under water if and when  
we get a rain. Therefore we recommend approval  
upon receipt of waivers

Yours very truly,

W. A. Gussert
