Re: Revised Non-Standard Location  
Custer State No. 1  
Section 36, T-24-S, R-36-E  
Lea County, New Mexico  
Jalmat Gas Pool

Dear Mr. Stamets:

On October 31, 1979, a request (Case 6708) was made to the New Mexico Oil Conservation Division for our Custer State No. 1 for (1) an infield finding (2) and 80-acre non-standard Jalmat proration unit consisting of the SW/4 NE/4 and SE/4 NW/4 Section 36, T-24-S, R-36-E and (3) a non-standard location of 2310 FNL and 1650 FEL Section 36. Subsequent approval was recently received from the NMOCD in this matter.

Upon attempting to construct the required drilling pad for the subject well, it was determined that the well could not be drilled at the approved location of 2310 FNL and 1650 FEL Section 36 due to an El Paso Natural Gas Company gas pipeline crossing that point. Therefore, for the above mentioned topographic reason, the subject well was moved from the originally approved location to a more orthodox location consisting of 2310 FNL & 1800 FEL Section 36.

As a result of the required drill site change, we now respectfully request that the NMOCD approve a revised Jalmat non-standard location for the subject well consisting of 2310 FNL and 1800 FEL Section 36. A copy of this request has also been issued to all offsetting operators owning Jalmat (Gas) rights. The following is a list of all such operators owning Jalmat (Gas) rights.

HAND DELIVERED

Re: Application of Doyle Hartman for Administrative  
Approval of the Revised Non-Standard Location  
for his Custer State #1 Well, Section 36, Township  
24 South, Range 36 East, Lea County, New Mexico

Dear Mr. Stamets:

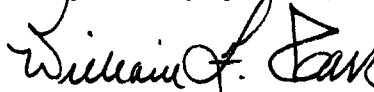

On December 7, 1979, I filed an application with the Oil Conservation Division seeking administrative approval of the above-referenced non-standard location. On that date you advised me that Mr. Hartman needed to supply the Commission with a plat showing the location of the gas lines in question.

Enclosed you will find three copies of a plat on which Mr. Hartman has indicated the location of the gas lines which have made it necessary to seek a non-standard location for the above-referenced well.

I also would like to point out that all offsetting operators who own Jalmat gas rights have been notified of this application by certified mail. Although additional operators' names appear on some of the attached plats, they do not own Jalmat rights.

If additional data is required to enable you to process this application, please advise.

Very truly yours,

  
William F. Carr

NEW MEXICO OIL CONSERVATION COMMISSION  
WELL LOCATION AND ACREAGE DEDICATION PLAT

Revised  
Form O-100  
Supersedes O-128  
Effective 1-1-65

All distances must be from the outer boundaries of the Section

Doyle Hartman		Custer State		1	
G	36	24 South	36 East	Lea	
Acres of Prorate Location of Wells					
2310	feet from the North	line and	1800	feet from the East	line
3264.6	Yates-Seven Rivers	Pool	Jalmat (Gas) Pool	80	Acres

- 1 Outline the acreage dedicated to the subject well by colored pencil or hatchure marks on the plat below.
- 2 If more than one lease is dedicated to the well, outline each and identify the ownership thereof (both as to working interest and royalty)
- 3 If more than one lease of different ownership is dedicated to the well, have the interests of all owners been consolidated by communitization, unitization, force-pooling, etc?

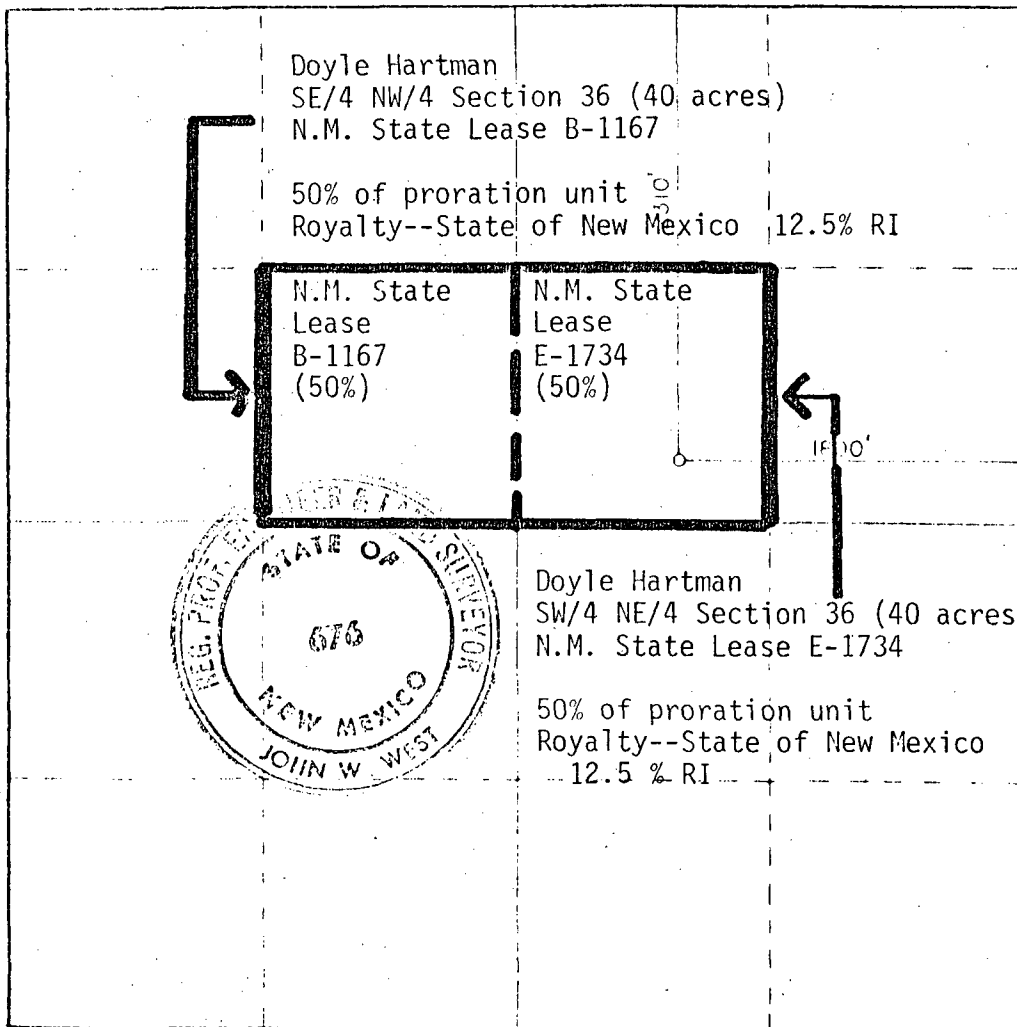

☒ Yes ☐ No

If answer is "yes," type of consolidation

80-acre Non-Standard Proration Unit  
requested and approved  
(Case No. 6708)

If answer is "no," list the owners and tract descriptions which have actually been consolidated (Use reverse side of this form if necessary.)

No allowable will be assigned to the well until all interests have been consolidated (by communitization, unitization, force-pooling, or otherwise) or until a non-standard unit, eliminating such interests, has been approved by the Commission.

Re: Revised Non-Standard Location  
Custer State No. 1  
Section 36, T-24-S, R-36-E  
Lea County, New Mexico

Dear Mr. Stamets:

Reference is made to our letter of December 4, 1979 requesting that the New Mexico Oil Conservation Division approve a revised Jalmat non-standard location of 2310 FNL & 1800 FEL of Section 36 for our above captioned Custer State No. 1.

Enclosed are copies of waivers from all offsetting operators owning Jalmat rights, indicating they waive any objection to our proposed non-standard location.

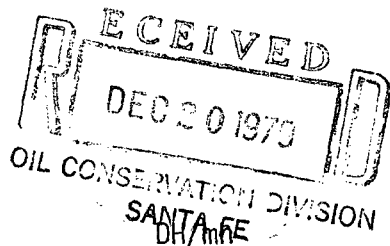

We hereby respectfully request that the NMOCD approve the revised Jalmat non-standard location for the subject well consisting of 2310 FNL and 1800 FEL Section 36, T-24-S, R-36-E, Lea County, New Mexico

Very truly yours,

Doyle Hartman
