Dear Sir:

Administrative approval is hereby requested for unorthodox location for a recompleted gas well as set forth in Oil Commission Rules and Regulations Rule # 104 "F", Page C-9.

Breach E. # <sup>583/m</sup> ~~581~~, 1925' from the South and 720' from the West, Section 5-26 North 6 West, Rio Arriba County, New Mexico.

This well originally drilled to South Blanco Tocito Pool.

September 2, 1976 well was plugged back to Chacra Zone and recompleted as single Chacra gas well. NSL # 720 approved location for gas well.  
*Supersede*

It is now proposed to deepen well to Dakota Zone then recomplete in following gas zones: Chacra, Mesa Verde and Dakota. Proposed Commingling and Dual Completion applications will be scheduled for hearings in January or February 1980.

A plat showing well location and dedicated acreage is attached.

Carbon copy of this letter sent to El Paso Natural Gas Company to notify them of this request.

*Not said certified*

Yours very truly,

*Charles E. Verquer*

We may not process the subject application for non-standard location until the required information or plats checked below (is)(are) submitted.

- A plat must be submitted clearly showing the ownership of the offsetting leases.
- A statement must be submitted that offset owners have been notified of the application by certified mail.
- A plat must be submitted fully identifying the topography necessitating the non-standard location.
- Other: Please consult with the Aztec office for proper well numbering and acreage dedication. Apparently the E/2 of Section 5 is already dedicated to a Blanco Mesaverde well.
