If a Watercourse was Impacted, Describe Fully.*		
Describe Cause of Problem and Remedial Action Taken.* A union on the wellhead began leaking and spraying oil. The well was shut in. The leaking connections were replaced and tightened.		
Describe Area Affected and Cleanup Action Taken.* The oil formed a puddle around the wellhead. A fine mist of oil covered 75% of the location and an area of approximately 200' x 200' of the adjoining pasture. The oil contaminated dirt from the location is being scraped up and will be taken to a reclamation site.		

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
