Source of Release	Tank Leak	Date and Hour of Occurrence	Unknown	Date and Hour of Discovery	3/19/2007 at NMOCD Inspection
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?	Date and Hour				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

n/a

Describe Cause of Problem and Remedial Action Taken.*

The actual cause of the problem is unknown. The pumper has reported the incident as being caused by vandalism.

Describe Area Affected and Cleanup Action Taken.*

The spill contents remained on-site. Initial clean-up activities consist of placement of visually contaminated soils on a liner at the site. The extent of contamination will be determined at the time of site clean-up. A Preliminary Delineation Work Plan dated 4/24/2007 has been submitted to the NMOCD Hobbs office (Chris Williams) for approval.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
