

RE: Application for non- standard location: North Carlsbad "OK" Com. No. 1, Unit B, Sec. 26, T2lS, R26E, Eddy County, New Mexico.

Dear Sir:

Enclosed is the plat showing the ownership of the offsetting leases. A copy of the cover letters with the receipt for certified mail attached on the three out of town lease owners is enclosed. I contacted Mr. Mark Wilson here in Artesia by telephone this morning, and he has received his copy of the letter.

The application to drill within the city limits of Carlsbad was approved at last nights council meeting. (November 25th).

Sincerely yours,

Yates Petroleum Corporation

Gliserio "Rod" Rodriguez Geographer

> Re: Non-Standard Location based on Topography: North Carlsbad "OK" Com No. 1 B-26-21S-26E

Dear Sir:

The proposed drillsite for our North Carlsbad "OK" Com. No. 1 is 660'FNL and 1650'FEL which is the location, we feel, that minimizes safety hazards and flooding possibilities.

A 660'FNL and 1980'FEL location would be approximately 200' from the water canal and the wellsite pad would extend up to 150' west of drill hole putting the west edge of the pad within 50' of the canal. This we do not think is adequate to maintain any measure of safety during the drilling and hopefully production operations.

Pursuant to the provision of Rule 103F, we request administrative approval for this unorthodox location. A topographic map is attached to show the location relative to the canal.

Presently an application has been made to the City of Carlsbad for approval to drill within the city limits.

Thank you for your cooperation.

GR/dw

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

 $\overline{X7}$

A plat must be submitted clearly showing the ownership of the offsetting leases.

A statement must be submitted that offset owners have been notified of the application by certified mail.

A plat must be submitted fully identifying the topography necessitating the non-standard location.
