

NSL-1379

APPLICATION FOR UNORTHODOX
240 LOCATION AND ASSIGNMENT
OF A 160-ACRE NON-STANDARD GAS PRORATION
L. W. WHITE 34 2-Y
EUMONT
LEA COUNTY, NEW MEXICO
CONSERVATION DIVISION
SANTA FE

Warrior, Inc. Requests approval for the unorthodox location of its L. W. White 34 2-Y, located in Unit Letter "J", 1980' FSL and 1960' FEL of Section 34, T-20S, R-36E, as indicated on attachment.

We also request the simultaneous dedication of a 160-acre non-standard gas proration unit to the well as shown on attached.

The L. W. White 34 No. 2 was originally drilled in December, 1980. The well was plugged January, 1981 due to hole problems. The original location was in Unit Letter "J", 1980' FSL and 1980' FEL of Section 34, T-20S, R-36E. The new location, L. W. White 34 2-Y, was moved 1960' FEL rather than 1980' FEL.

We further seek permission to simultaneously dedicate a 160-acre non-standard gas proration unit consisting of the SE/4 of Section 34, T-20S, R-36E, Lea County, New Mexico to the aforementioned well. Although field rules designate 640 acres as a standard gas proration unit, development of the pool has generally been on proration units of less than 640 acres. The second well located in the same SE/4 for which simultaneous dedication is sought is L. W. White Well No. 1 which is located in the SE/4 of Section 34, T-20S, R-36E, Lea County, New Mexico. Unit P

We therefore request, based on evidence presented, that the Division enter its Order approving the unorthodox location and simultaneous dedication of proration unit.

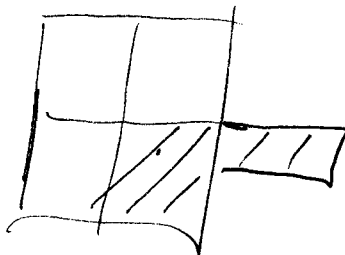

Offset operators have been notified of the above requests by certified mail.
