NATURE OF RELEASE

Type of Release: Diglycolamine (DGA) and water	Volume of Release: Approximately 1000 gallons	Volume Recovered: Approximately 500 gallons
Source of Release: Acid Gas Flare	Date and Hour of Occurrence: 5/24/07 Approx. 9:20AM	Date and Hour of Discovery Same
Was Immediate Notice Given? <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Rebecca Woodell Attempted to notify OCD on 5/25/07 and phone lines were out. Don Embrey Sent E-mail on 5-29-07	
By Whom? Rebecca Woodell and Don Embrey	Date and Hour 5/25/07 and 5/29/07	
Was a Watercourse Reached? No <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

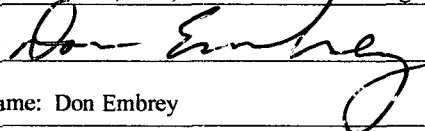

Describe Cause of Problem and Remedial Action Taken. *

Tray damage in the Amine Regenerator caused a high differential pressure in the vessel causing a plant upset that resulted in the liquid amine carrying over into the flare system. The plant was shutdown, the vessel entered and the trays repaired.

Describe Area Affected and Cleanup Action Taken.*

The DGA-water mix sprayed over the plant yard. Targa recovered approximately 500 gallons of the DGA-water mix by drip truck. The remaining area of the spill was spread with fresh soil to soak up the mix. The soil was then scraped to remove the contaminated soil and will be sent to an QCD approved landfill.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
