RE: Application For Exception of
Well Location Requirements,
Escrito-Gallup Associated Pool,
Rio Arriba County, New Mexico

Dear Mr. Ramey:

Dome Petroleum Corp. requests administrative approval of an unorthodox oil well location in the Escrito-Gallup Associated Pool due to topographical conditions. This application is made per Rule No. 2 of the General Pool Rules for Associated Oil and Gas pools.

The proposed well location is 375' FNL, 1980' FEL, Sec 34, T24N, R7W, Rio Arriba County, New Mexico (see attached Plat No. 1). Dome has submitted an APD for this location with the well name being the Dome Federal 34-24-7 No. 1.

The attached Plat No. 2 shows the well location and offset lease ownership. It is our intention to drill a well in the NW/4 NE/4 Sec. 34 within an 80 acre spacing unit consisting of the W/2 NE/4 Sec. 34.

Plat No. 3 is a topographic map showing that it is impossible to drill a standard well location in the NW/4 NE/4. The standard well location "window" as set forth by the General Pool Rules is indicated on Plat No. 3. This "window" lies on the side of a extremely steep incline. It is impossible to build a location and drill a well on this topography, however, it is possible to locate and drill a well on the top of the incline in an area which has relatively gentle topography. This is the proposed location that Dome is applying for.

Application for Exception of
Well Location Requirements,
Escrito-Gallup Associated Pool,
Rio Arriba County, New Mexico
Page 2

The operators of the offset leases (Atom, Inc., BCO, Inc., and
Southern Union Production Co.) have been notified of this application
by certified letter.

If there are any questions concerning this application please contact
myself at (303) 620-3136 or H.D. Hollingsworth of our Farmington,
New Mexico office at (505) 327-7391.

Very truly yours,

DOME PETROLEUM CORP.

RE: Exception for Well Location
Escrito-Gallup Associated Pool
Rio Arriba County, New Mexico

Gentlemen:

Dome Petroleum Corp. is requesting an exception for well location from the State of New Mexico, Oil Conservation Division in an 80 acre spacing unit offsetting your leases. The spacing unit is the W/2 NE/4 Sec. 34, T24N, R7W and the proposed well location is 375' FNL, 1980' FEL. The application is being made due to topographical conditions which makes it impossible to drill in the standard well location set forth in the General Pool Rules.

Please complete the attached waivers concerning this matter and forward one copy to the State of New Mexico, Oil Conservation Division, P.O. Box 2088, Sante Fe, NM. 87501 and return one copy for our records.

Very truly yours,

DOME PETROLEUM CORP.
