Re: Application for Non-Standard Location
San Juan 32-7 Unit #80
660 FWL & 1695 FSL
Sec 3, T31N, R7W

Dear Mr. Stamets:

Northwest Pipeline requests permission to drill the above captioned well in a Non-Standard location due to the odd shaped drilling block caused by a variation in the legal subdivision of the U.S. Public Lands Surveys. This drilling block has been approved by Order R-5364. A copy of the surveyors plat and a topographical map are attached.

The offset operators of this well have been notified of the Non-Standard location by certified mail. Copies of these letters along with a copy of the receipts for certified mail are enclosed.

Thank you,

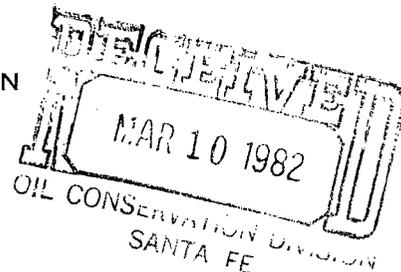

Paul C. Thompson

Dear Mr. Loos:

Northwest Pipeline has requested permission from the New Mexico Oil Conservation Division to drill a well in a Non-Standard location due to an odd shaped drilling block caused by a variation in the U.S. Public Lands Survey. This drilling block has been previously approved by the NMOCD for the Pictured Cliffs formation. Our records show you to be an offset operator of the well which is described below. Notify R.L. Stamets, with the NMOCD in Santa Fe, if you have any objections to this location within 20 days. This letter is being sent by certified mail in accordance with NMOCD regulations.

San Juan 32-7 Unit #80 - 660 FWL & 1695 FSL - Sec 3, T31N, R7W.

Sincerely,

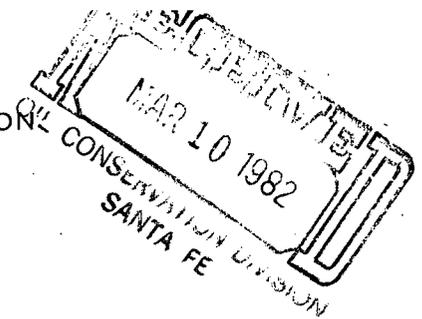

Paul C. Thompson
Drilling Engineer
