ANADARKO PRODUCTION COMPANY

July 15, 1982

State of New Mexico Energy and Minerals Department Oil Conservation Division P. O. Box 2088 Santa Fe, New Mexico ATTN: Division Director

Dear Sir:

Anadarko Production Company requests administrative approval to drill the Ballard Grayburg San Andres Unit <u>Well No.19-2</u> at an unorthodox location 1700 feet from the south line and 1000 feet from the east line of Section 7, Township 18 South, Range 29 East, Eddy County, New Mexico. An application to drill this well wassfiled June 29, 1982.

The Ballard Grayburg San Andres Unit waterflood was authorized March 16, 1973 by Order Number R-4493. Paragraph 6 of this order provides for administrative approval of such orthodox locations.

The proposed well will be completed as an infill producer in the Grayburg formation. The location is 320 feet from the quarter-quarter line, therefore making it unorthodóx. However, the well will be located further than 330 feet from the unit boundary. This well is needed to recover waterflood oil not obtainable by existing wells.

Attached is a C-102 form for the proposed well. Thank you for your consideration in this matter.

19 1982 SAMA

Very truly yours,

Michael Bridges Production Engineer

MB:gks

cc: Dan Kernaghan Bill Griffin Jerry Buckles

> Re: Application for Non-Standard Location:

We may not process the subject application for non-standard location until the required information or plats checked below (is) (are) submitted.

7 A plat must be submitted clearly showing the ownership of the offsetting leases.

A statement must be submitted that offset owners have been notified of the application by certified mail.

A plat must be submitted fully identifying the topography necessitating the non-standard location.

7 Other: 15 Anadarko operator of unit?

Very truly vours
