Hand delivered

Mark E. Fesmire Oil Conservation Division 1220 South St. Francis Drive Santa Fe, New Mexico 87505

Dear Mr. Fesmire:

Pursuant to Division Rule 104.F(2), Cimarex Energy Co. of Colorado applies for approval of an unorthodox oil well location for the following well:

<u>Well</u> :	Pipeline B5 Fed. Well No. 3
Location:	1980 feet FNL & 2180 feet FWL
Well Unit:	S½NW¼ §5-19S-34E, Lea County, New Mexico
	(80.00 acres)

The well will be drilled to a depth sufficient to test the Bone Spring formation (EK-Bone Spring Pool). Under Order No. R-4981, the pool is spaced on 80 acres, with wells to be located within 150 feet of the center of a quarter-quarter section. A Form C-102 is attached as Exhibit A.

The location is unorthodox for topographic and geologic reasons. The original location was orthodox, 1980 feet FNL and FWL. However, there are sand dunes in this area, and the Bureau of Land Management requires operators to minimize surface disturbance. There is a sand dune at the original location, requiring the well to be moved east.

Applicant does not want to move the well to the west, or into the SW<sup>1</sup>/<sub>4</sub>NW<sup>1</sup>/<sub>4</sub> of Section 5, because the best geologic locations are in the SE<sup>1</sup>/<sub>4</sub>NW<sup>1</sup>/<sub>4</sub> of Section 5. See Exhibit B.

All of Section 5, except the  $SW_4SW_4$ , is subject to Federal Lease NM 4314, with common ownership in the Bone Spring formation. See Exhibit C. As a result, notice of this application has not been given to anyone.

Yery truly yours, ames Bruce U.

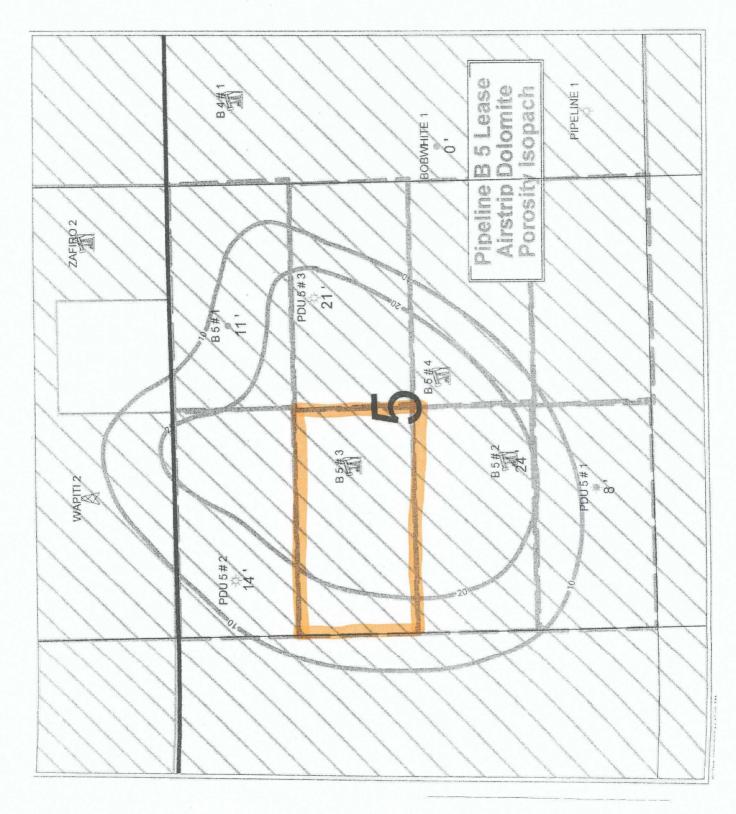

١,

۰.

Attorney for Cimarex Energy Co. of Colorado
