East E.K. - Queen Pool*

Gentlemen:

Conoco Inc. respectfully requests administrative approval for an unorthodox location based upon geological reasons for our East E.K. Queen Unit Well Number 12 located 2393' FNL and 2388' FWL of Section 22, T18S, R34E, Lea County, New Mexico. The subject well will be drilled to encounter sand between the last row of wells and a sand pinchout in the northwest corner of the unit. Also this location insures a safe distance from the two pipelines that intersect near by. Anticipated spud date is November 1, 1982.

Attached is a well location plat illustrating the proposed well and neighboring pipelines.

Conoco Inc. is the operator on all acreage around the 40 acre proration unit for this well.

Please contact this office if any further information is required.

Yours very truly,

RER:cbd
