Gentlemen:

Attached in duplicate (to each office) are a well location plat (C-102) with an ownership plat for the above referenced well.

Due to steep topography and the location of an existing well, this well could not be placed where it conforms to state spacing requirements. This is the only geologic and topographic site acceptable.

A copy of this application is being submitted to all offset operators by certified mail with a request that they furnish your Santa Fe office with a waiver of objection.

Pursuant to the authority of Rule 104-F we respectfully request your approval of an exemption to the standard well location requirements.

Yours very truly,

TENNECO OIL COMPANY

- RE: Proposed MC \_\_\_\_\_
- Proposed DHC \_\_\_\_\_
- Proposed NSL \_\_\_\_\_ ✓
- Proposed SWD \_\_\_\_\_
- Proposed WFX \_\_\_\_\_
- Proposed PMX \_\_\_\_\_

Gentlemen:

I have examined the application dated 12-20-82  
 for the Tenneco Oil Co. Florana #62E G-20-27N-8W  
 Operator Lease and Well No. Unit, S-T-R

and my recommendations are as follows:

There is a well at 1840' N 1800' E and the surrounding  
topography won't allow for another standard location, but it  
can be moved closer to the existing well. It's approx  
350' away now and could be moved to with 200 ft easily.  
A location of 1950' N 1950' E would put it 186' ft away.

Yours truly,

Jeff A. Edmister *OK*
