Walk A A Gamma A Gamm Unorthodox Location - Penny Federal No. 1 - 660' FSL and 1980' FWL of Section 23, T-20S, R-24E, Eddy County, New Mexico

In May, 1971 the subject well was drilled and completed in the Cisco formation and 80 acres were dedicated to it. This was an orthodox location. In October, 1973 Special Rules and Regulations for the South Dagger Draw -- Upper Penn Pool were placed into effect and the subject well's spacing increased to 320 acres.

Additionally, the well was recently recompleted in the Wolfcamp formation, also a 320 acre spacing, which qualifies for an unorthodox location.

Based on this recompletion, Conoco Inc. respectfully requests administrative approval for an unorthodox location.

Attached is a well location plat and map illustrating the subject well and surrounding wells. All offset operators have been furnished notice of this application by certified mail.

Please contact Greg Perry of this office if further information is required.

Yours very truly,

Mark K. Mosley Division Manager
