Attention: Mr. Joe D. Ramey

Division Director

NSL-#/813 RULE 104FI

RELEASE IMMIDIATELY

STATE LEASE

Gentlemen:

We respectfully request administrative approval, as provided by Statewide Rule Number 104 (F) (I), for an unorthodox location for the Leamex Well No. 20 located 550 feet from the north line and 1703 feet from the east line, Unit B, Section 23, T-17-S, R-34-E, Lea County, New Mexico. The subject well was originally drilled and completed, at a standard location and with a 40 acre proration unit, in the Maljamar Grayburg/San Andres Pool.

This request for an unorthodox location is necessary due to recompletion as a Wildcat gas well in the Queen formation. The following exhibits are attached:

- 1. Area segment of land map showing the Leamex Lease and offset opera-
- Form C-102 showing well location and 160 acre proration unit.

Phillips Oil Company is the offset operator for which the unorthodox location is sought.

Your consideration and advice will be appreciated.

Very truly yours,

All officets are owned by Phillips ypp

Danders
