Dear Mr. Johnson: SOCORRO COUNTY

(FEDERAL LEASE)

Pursuant to our phone conversation, I request a variance non-standard location clearance (Permit) for a wildcat well in Socorro County.

The location is on a very narrow, high-relief anticline. Geologically, to move the location north or south would take it off structure and render it ineffective. To move it east or west, one would encounter an 80' cliff on one side and a 90' cliff on the other side.

Enclosed is a survey plat, a topo map, and a cross-section to assist in the analysis of the situation.

Thank you for your consideration.

Yours truly,

  
C. R. Robinson
