Mangum No. 9  
305' FSL; 1572' FEL  
Section 28, T29N-R11W  
San Juan County, New Mexico

Dear Mr. Ramey:

I would like to correct a few inaccuracies in a letter dated July 27, 1984 (copy attached). The first is the lease number. The letter indicated the lease number is 070982 when it is actually 020982.

The second is the well location. The letter indicated the location as 305' from the South line and 1572' from the West line. The well is staked and located as follows: 305' from the South line and 1572' from the East line. All of the off-set lease holders were notified of the correct location (305' FSL; 1572' FEL) and a copy of the letters to each is attached.

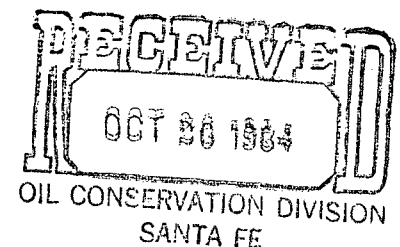

If I may be of any further assistance, please advise. Your prompt attention to this matter would be greatly appreciated.

Very truly yours,

Robert C. Frank

Attention: W. K. Cooper

Administrative Order NSL-1850

Gentlemen:

Reference is made to your application for a non-standard location for your Mangum Well No. 9 to be located 305 feet from the South line and 1572 feet from the West line of Section 28, Township 29 North, Range 11 West, NMPM, Aztec Fruitland formation, San Juan County, New Mexico. The SE/4 of Section 28 is to be dedicated to the well.

By authority granted me under the provisions of Rule 104 F I, the above-described unorthodox location is hereby approved.

Sincerely,

  
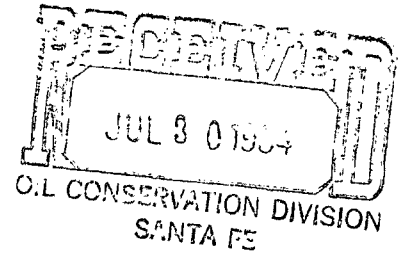

JOE D. RAMEY,  
Director

Mangum 9

Dear Mr. Ramey:

It is respectfully requested that Union Texas Petroleum Corporation be granted administrative approval to drill and complete their Mangum 9 well in the Aztec Fruitland formation, in a non-standard location due to topographical reasons. (See attached map).

This proposed well would be located 305 feet from the South line and 1572 feet from the West line of Section 28, Township 29 North, Range 11 West, N.M.P.M., San Juan County, New Mexico.

**SE/4 OF SECTION 28 dedicated**

Gentlemen:

Union Texas Petroleum proposes to drill their Mangum No. 9 Fruitland well located in a non-standard location as follows: 305' FSL; 1572' FEL, of Section 28, Township 29 North, Range 11 West, N.M.P.M., San Juan County, New Mexico.

The purpose of the non-standard location is due to the Fruitland zone being a channel sand must be completed when it is found to exist by logging operations on other wells. This is the case in this proposed well. Our records indicate that you are the operator of acreage which adjoins this drilling unit. We request that you review the location and if you have no objections to the proposed non-standard location, we would appreciate your signing the copy of this letter and returning it to this office.

Your prompt attention to this matter would be appreciated.

Yours truly,

Re: Mangum No. 9 Fruitland Well

Dear Mr. Motto:

In reply to your letter dated July 13, 1984, this is to inform you that Aztec Well Service Company does not own or operate any producing properties.

Please check your records to see who the operator of this acreage should be.

If we can help you in any way please let us know.

Very truly yours,
