Administrative Order NSL-2001-A

Dear Mr. Hawkins:

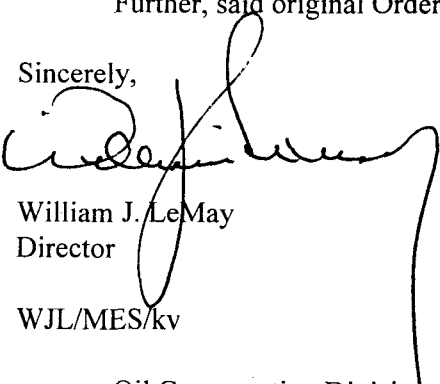

Reference is made to your application dated December 19, 1996 for a non-standard Basin-Fruitland coal gas well location for your existing Gallegos Canyon Unit Well No. 213-E (API No. 30-045-26305), which was drilled in 1985 and completed in the Basin-Dakota Pool at a previously approved unorthodox gas well location (see Division Administrative Order NSL-2001, dated March 15, 1985) 930 feet from the South line and 480 feet from the West line (Unit M) of irregular Section 8, Township 28 North, Range 12 West, NMPM, San Juan County, New Mexico.

It is our understanding that this well is to be recompleted up-hole into the Basin-Fruitland Coal (Gas) Pool, which pursuant to the "*Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool*", as promulgated by Division Order No. R-8768, as amended, is also unorthodox. Further, all of said irregular Section 8 is to be dedicated to the well to form a non-standard 273.87-acre gas spacing and proration unit for said pool.

By the authority granted me under the provisions of Rules 6 and 8 of the "*Special Rules and Regulations for the Basin-Fruitland Coal (Gas) Pool*", as promulgated by Division Order No. R-8768, as amended, the above-described unorthodox coal gas well location for the Gallegos Canyon Unit Well No. 213-E and said 273.87-acre non-standard gas spacing and proration unit in the Basin-Fruitland Coal (Gas) Pool are hereby approved.

Further, said original Order NSL-2001 shall be placed in abeyance until further notice.

Sincerely,

William J. LeMay
Director
