RE: P & S Brine Sales, Basic Energy
Eunice, NM
Remediation #1497

Mr. Williams:

As discussed with you earlier, Basic has completed the excavation phase of the remediation at P & S Brine. Basic has hauled approximately 2700 cu. yds. of salt contaminated soil to Sundance for disposal. The excavated area was sampled from the beginning of the spill going East approximately 1600 ft. We took 22 different composite samples after taking approximately 1 ft. of soil from the spill area. When the results of the samples were received, there were areas which required additional excavation. We excavated additional soil from areas 1, 2, 7, 8, 9, 10, 14, 15, 16 and 20. These areas were retested and were within the range the OCD would accept. As recommended by OCD, we installed a clay liner in areas 5, 6, 1 and 2. This was being completed as verbally approved by Mr. Chris Williams. Basic would like to continue the closing of the site as approved. We will backfill, level and caliche areas as needed.

We will file a final report of the closing with new C-141. Find enclosed analytical and photos of work.

If you have any questions, please call.

Sincerely,

Eddie W. Seay, Agent
Eddie Seay Consulting

Describe Cause of Problem and Remedial Action Taken.*

Brine water overflowed from tanks and ran down road. Excessive water picked up and area stabilized.

Describe Area Affected and Cleanup Action Taken.*

Brine water ran down road. Picked up. Work Plan being made by Seay Consulting

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.

PLEASE NOTE **Liability and Damages** Cardinal's liability and client's exclusive remedy for any claim arising, whether based in contract or tort, shall be limited to the amount paid by client for analyses. All claims, including those for negligence and any other cause whatsoever shall be deemed waived unless made in writing and received by Cardinal within thirty (30) days after completion of the applicable service. In no event shall Cardinal be liable for incidental or consequential damages, including, without limitation, business interruptions, loss of use, or loss of profits incurred by client, its subsidiaries, affiliates or successors arising out of or related to the performance of services hereunder by Cardinal, regardless of whether such claim is based upon any of the above-stated reasons or otherwise.
