Latitude 32°43'56.56"N Longitude 103°35'26.52"W

NATURE OF RELEASE

Type of Release: Crude Oil	Volume of Release 50 barrels	Volume Recovered 18 barrels
Source of Release: 6" Steel	Date and Hour of Occurrence 12/15/2000	Date and Hour of Discovery 12/15/2000 14:30
Was Immediate Notice Given? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom? Donna Williams	
By Whom?	Date and Hour 12/15/2000 14:35	
Was a Watercourse Reached? <input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.	

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.* Pipeline was clamped to mitigate the release during initial response activities.

Describe Area Affected and Cleanup Action Taken.*

The crude oil release was excavated: impacted soil was placed adjacent to the excavation, soil boring samples were collected from the floor of the excavation, composite samples were collected from the stockpile, two additional samples were collected from the bottom of the excavation. All soil boring sample concentrations were below the NMOCD remedial threshold limits. Similarly, analytical results from the bottom hole and stockpile samples exhibited BTEX and TPH concentrations below the NMOCD remedial threshold limits. The site was then backfilled in accordance with the Soil Remediation Work Plan approved by the NMOCD on April 5, 2007.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
