Mr. Richard Stamets, Secretary-Director New Mexico Oil Conservation Division P. O. Box 2088 Santa Fe, New Mexico 87501

Decluided Acresse- 40 acres DE14 NE14 Section 9 East Indian Draw Delaware

RE: <u>Big\_Eddy Unit #111</u> 1140' FNL & 330' FEL Section 9-T22S-R28E Eddy County, New Mexico

Dear Sir:

MYCO Industries, Inc. would appreciate an administrative approval for a proposed unorthodox Bone Springs location as provided for under NMOCD Rule 104F.

Our preferred location for this well was 990' FNL & 330' FEL. Our reason for requesting the non-standard location is: Topographical: The location fell on the edge of a sink hole and would have covered the existing road. The BLM would not permit us to drill there.

Enclosed please find a copy of the lease map showing offsetting lease operators, a topographical map of the area and a survey plat. Offsetting lease operators have been notified of our intentions by certified mail, via a xerox copy of this letter.

Formations we expect to drill through are: Salt, Base of Salt, Delaware and Bone Springs.

Thank you for your help in this matter.

Sincerely, Clifton R. May

Regulatory Agent
