RULE-104F(E)

RE: Request for Approval of Unorthodox Well Location,  
San Juan County, New Mexico

Gallegos Gallup Pool  
& Acreage  
w/2 SE14

Gentlemen:

Please consider this letter as a request for approval of the below  
referenced unorthodox well location:

O. H. Randel #11  
1650' FSL & 1980' FEL  
Sec. 10-T26N-R11W

This well was originally permitted as a 40-acre well to be drilled  
to the Gallup formation. After the permit had been approved, we  
submitted a 80-acre dedication with the same footage. The well  
was then drilled without realizing that the Gallup formation in  
this area was covered under separate spacing regulations (Gallegos  
Gallup), allowing a different window. The state office in Aztec  
notified us of the discrepancy and indicated the need to file this  
request.

This well is immediately adjacent to our #2-E well and, in fact,  
shares the same well pad. The well could have been moved the 130'  
prior to drilling had we been aware of the special spacing regula-  
tion. We realize that this situation is our mistake, however, we  
would appreciate your consideration of the circumstances. Attached  
is a plat showing ownership of affected leases. BHP Randel lease  
covers all of Sections 9, 10 and 15, T26N-R11W. ERG is the offset-  
ting operator of all offsetting proration units.

If there are any problems or questions, please call.

Very truly yours,  
BHP PETROLEUM (AMERICAS), INC.
