Frank Chavez New Mexico Oil Conservation Division 1000 Rio Brazos Rd. Aztec, NM 87410 Application for Administrative Approval of Unorthodox Location for RF Callegos Callys Port 80 Acres dedicated Dugan Production Corporation's KR #15 2310' FSL - 330' FEL, Sec. 20, T27N, R13W, NMPM San Juan County, NM - Gallup Test E12 SE14 Secture 20

Dear Mr. Chavez:

We hereby request approval of an unorthodox location for the subject well. Copies of the well location plat, topographic map and a production map showing offsetting operators are attached for your reference.

The unorthodox location is necessary due to proposed pivot arm radius prohibits placement of pump jack on an orthodox location. Dugan Production has intentionally placed the well at this location to avoid planned cultivated fields.

A copy of this application is being submitted to all offsetting operators by certified mail with a request that they furnish your office with a waiver of objection.

We request your approval of this location under the provisions of NMOCD Rule 104-F.

Sincerely.

Sherman E. Dugan Agent

Bureau of Land Management - Farmington CC: Merrion Oil & Gas Corp.

## WAIVER
