RE: Unorthodox Location  
Zachry # 51  
812' FSL & 573' FWL  
Sec. 35-T29N-R10W  
San Juan County, New Mexico

Dear Mr. Stamets:

Union Texas Petroleum requests administrative approval of an unorthodox location for a Mesaverde completion at the location of 812' FSL & 573' FWL, Section 35 - T29N - R10W. An application for a downhole commingling order, pertaining to the well, was recently forwarded to you for consideration. Union Texas Petroleum requests that the application for an unorthodox location run concurrently with our application for downhole commingling of the subject well.

Pursuant to recent changes in Rule 1207, Section A-2, no other operators will be notified of our intentions. All acreage (see attached plat) adjacent to the sides and corner closest to the proposed well are operated by Union Texas Petroleum.

If I may be of further assistance, please advise.

Very Truly Yours
