NATURE OF RELEASE

Type of Release	Produced Water	Volume of Release	Unknown	Volume Recovered	Unknown
Source of Release	Produced Water Storage Tank	Date and Hour of Occurrence	Unknown	Date and Hour of Discovery	Unknown
Was Immediate Notice Given?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No <input type="checkbox"/> Not Required	If YES, To Whom?			
By Whom?	Date and Hour				
Was a Watercourse Reached?	<input type="checkbox"/> Yes <input checked="" type="checkbox"/> No	If YES, Volume Impacting the Watercourse.			

If a Watercourse was Impacted, Describe Fully.*

Describe Cause of Problem and Remedial Action Taken.*

Produced water tank overflowed. Battery operated by Platinum Exploration, Inc. at time of incident. Saber Resources LLC has recently acquired ownership of the lease. Soil samples have been collected. No remedial action has taken place at this time.

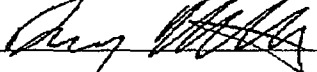

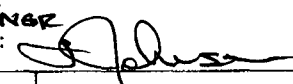

*** CHLORIDE CONTENT OF SPILLED WTR REPT
ON ALL SUBMITTALS**

Describe Area Affected and Cleanup Action Taken.*

An approximate 50' x 60' area inside the battery, and an approximate 15' x 20' area outside the battery was affected by the spill. Soil samples were collected from two locations inside the battery and one location outside the battery, to the west of the salt water tank. Samples were collected from the surface, and at depths of 1' and 2' bgs by hand auger methods. Impacted soil will be removed from both inside and outside the battery area until soil samples report chloride and TPH concentrations below the New Mexico clean up standards. Depth to groundwater is at approximately 22' bgs.

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOC rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOC marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOC acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations.
