Re: Four Mile Draw Federal #5 NW/4, Sec. 14, T6S, R22E

Chaves County, N.M.

Gentlemen:

McKay Oil Corporation requests an approval for an unorthodox location in the NW/4, Section 14, Township 6 South, Range 22 East, NMPM. (See Attachment 'A') Due to topography and geological problems, McKay Oil is requesting an unorthodox status.

The well was originally staked 1980 feet from the North line and 660 feet from the West line. Due to the terrain, the BLM would not approve this location or any other standard location within this particular drilling spacing unit. (See Attachment 'B')

The Southwest quarter of this quarter section was chosen because of geological data on surrounding wells. Further, any location in this quarter section that would be feasible to drill would have to be a non-standard location. Therefore, it our opinion that this location would be the only economical and productive location to drill. (See Attachment 'C')

All minerals surrounding this proration unit are leased to McKay Oil Corporation. (See Attachment 'A')

Therefore, McKay Oil requests that the O.C.D. approve the unorthodox location at 2080 feet from the North line and 330 feet from the West line, Section 14, Township 6 South, Range 22 East, NMPM, which has been approved by the BLM and E.N.M. Archaeological Service.

LEASES

INVESTMENTS
