Describe Cause of Problem and Remedial Action Taken.*  Thunder Storms, Lightning hit 500 bl tack which contained appropriate 45 bls oil all Huids bound up. Top on tack dustroyal. Eurone + Mono most per Port and
No release only, what fire dept sprayed on toules
No release only, what fire dept sprayed on todas.  While less up mess + Toutes.
I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and
regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger
public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability
should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other
federal, state, or local laws and/or regulations.
