RE: Moonrise State Unit #1 330' FSL and 330' FWL of Section 27-T18S-R36E Lea County, New Mexico

The captioned well was permitted to be drilled as a 11025' Wolfcamp oil well. This well is not capable of producing as a Wolfcamp oil well. Therefore, we are completing this well up the hole as a Queen gas well with spacing of 160 acres. This change will cause said well to have a non-standard location within the spacing unit.

June 10, 1987

Enclosed please find a copy of the lease map showing offsetting lease operators, a topographical map of the area and a survey plat. Offset lease operators have been notified by certified mail, via a xerox copy of this letter.

Thank you for your cooperation.
