Re: Unorthodox Location (Amended)  
WDQSU ~~31~~-87  
2450' FNL 1350' FEL, Sec. 31  
T24S, R38E, Lea County, New Mexico

Gentlemen:

This letter shall serve as our request to have the amended unorthodox location described above approved by your office. The original location for WDQSU 31-87 staked 2450' FNL 1400' FEL, cannot be built because of the presence of a heavy duty, high pressure gas line belonging to El Paso Natural Gas under the original location. We propose to move the location 50' to the east.

On the attached plat, you will note our location still lies within the unit boundaries of the West Dollarhide Queen Sand Unit. We are requesting approval of this location because it will also allow us to establish a more efficient waterflood pattern within the unit.

Should you have additional questions, please call.

Sincerely,

*Amy L. Whitley*
