Columbus Energy Corporation P.O. Box 2038 Farmington, NM 87499

Attention: Wayne L. Converse

Amended

Administrative Order NSL-2402

Gentlemen:

Reference is made to your application for a non-standard location for your Con Hale Well No. 2 located 1040 feet from the South line and 884 feet from the West line of Section 15, Township 26 North, Range 8 West, NMPM, Wildcat Gallup Pool, San Juan County, New Mexico. The SW/4 SW/4 of said Section 15 shall be dedicated to the well.

By authority granted me under the provisions of Rule $104 \, \mathrm{F(I)}$, the above-described unorthodox location is hereby approved.

Sincerely,

WILLIAM J. LeMAY, DIRECTOR

> RE: Application for Administrative Approval for Unorthodox Location for Columbus Energy Corp. CON HALE 2E Basin Dakota/Wildcat Gallup Dual 1040' FSL & 884' FWL, Sec. 15, T26N, R8W, San Juan County, New Mexico

Dear Mr. LeMay,

We hereby request approval of the unorthodox location for the subject well. Copies of a location plat and map showing offset operators are attached for your reference.

On July 16, 1984 this well was completed as a Basin Dakota gas well. Two months later the BLM granted an application to recomplete the Gallup zone as a Wildcat. After initial tests were performed, the Gallup was reported to have a GOR of 14,221. At that time we believed that wells with a GOR of 10,000 or less would qualify as an oil well. We have since learned that the cutoff GOR for an oil well is 100,000 or less. Our well is located 50 feet North of an orthodox location for a gas/oil dual. Columbus energy leases the west half of section 15.

If you have any questions, please write or call me at (505) 632-8056.

Yours very truly,

COLUMBUS ENERGY CORPORATION

Wayne L. Converse District Engineer
