Gentlemen:

We request administrative approval of an unorthodox location for our Jicarilla 478 #1 Gallup formation oil well, located 1960' FSL and 1325' FEL, Section 3, Township 28 North, Range 1 West, Rio Arriba County, New Mexico. This well staking is 505 feet too close to the line separating the NWSE and NESE portions of Section 3, Township 28 North, Range 1 West. You will note from the enclosed topographic map that there is no other area for an economically buildable location in this quarter section due to the rough topography.

Also enclosed is a lease map indicating Mallon Oil Company as the Operator of all surrounding 80 acre tracts, by virtue of a Farmout Agreement with Union Oil Company of California, with the exception of the 80 acre unleased (open) tract directly to the the east of this well staking. As evidenced by this lease map, there is no need to obtain waivers from the the offset owners.

If you should need any further information on this well, please advise.

Sincerely,

MALLON OIL COMPANY

Karen E. McIntock  
Landman
