RE: Unorthodox location for
Eakin AFB Com #1
330' FNL and 2100' FWL of
Section 17-T10S-R25E
Chaves County, New Mexico

Dear Sir:

Yates Petroleum Corporation respectfully requests an administrative approval for a proposed unorthodox location as provided for under NMOCD Rule 104F.

Our preferred location for this well was 660' FNL and 1980' FWL. Our reason for requesting this non-standard location is that our preferred location fell in a cultivated area. We have chosen to drill our non-standard location 330' FNL and 2100' FWL.

Enclosed please find a copy of the lease map showing offsetting lease operators, a topographical map of the area and a copy of the surveyors plat. Offsetting lease operators have been notified of our intentions by certified mail, via a xerox copy of this letter, along with a waiver stating that they have no objections to this unorthodox location. A copy of the certification, showing where the offset operators have been notified, is enclosed.

Formations we expect to drill through are: San Andres, Glorieta, Yeso and will TD in the Abo.

We respectfully ask for your expeditious approval of this application, as we have to be drilling across May 1, 1988.
