This site was turned over to Apache from the BLM for restoration. This is a tank battery abandonment notice. John Good of Elke Environmental has been contracted to find delineation and propose a clean up plan according to NMOCD guidelines.					
Describe Area Affected and Cleanup Action Taken *					
This is two well locations and a small tank battery site. The site is listed under CW Stumhoffer.					

I hereby certify that the information given above is true and complete to the best of my knowledge and understand that pursuant to NMOCD rules and regulations all operators are required to report and/or file certain release notifications and perform corrective actions for releases which may endanger public health or the environment. The acceptance of a C-141 report by the NMOCD marked as "Final Report" does not relieve the operator of liability should their operations have failed to adequately investigate and remediate contamination that pose a threat to ground water, surface water, human health or the environment. In addition, NMOCD acceptance of a C-141 report does not relieve the operator of responsibility for compliance with any other federal, state, or local laws and/or regulations
