Mr. William LeMay New Mexico Oil Conservation Division P.O.Box 2088 Santa Fe, New Mexico 87501

Re:Unorthodox Gas Well Location Northeast Blanco Unit No. 451 210'FNL - 1900'FEL, Sec.6, T30N, R7W San Juan Co., New Mexico

Dear Mr. LeMay;

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7 , R -8768 for the subject well, located in the Basin Fruitland Coal Pool.

This request is for exception due to topography. A Vicinity Map and C-102 are attached for your reference. As evidenced by the Vicinity Map there is no possible way to position a location at a standard footage from the north line because of the steep canyon wall of the Pine River. This location was staked to take advantage of the existing disturbed area adjacent to the existing NEBU # 37.

The east half of Section 6 will be dedicated to this well. All offset proration units are operated by Blackwood and Nichols Co., Ltd.

Your prompt consideration of this request is appreciated.

Sincerely,

Coby sent to E. Bench 2 13/89.

William F. Clark Operations Manager Blackwood & Nichols Co., Ltd.
