Re: Unorthodox Gas Well Location
Northeast Blanco Unit Well No. 424
2075' FNL, 1330' FWL
Section 4, T30N, R7W
San Juan County, New Mexico

Dear Mr. LeMay:

Blackwood & Nichols Co., Ltd. requests administrative approval of an exception to the footage requirements of Rule 7, R-8768, for the subject well located in the Basin Fruitland Coal pool.

This request is for exception due to topography. A vicinity map and C-102 are attached for your reference. As evidenced by the vicinity map, all of the standard footage window in the Northeast quarter is covered by Navajo Reservoir. This standard location in the Northwest quarter was staked as the best alternative. A non-standard footage location by the NEBU #44 (NE-4-30-7) was not considered acceptable due to its proximity to the shoreline.

The west half of Section 30 will be dedicated to this well. All offset proration units are operated by Blackwood & Nichols Co., Ltd.

This well was previously approved by NSL-2634.

Your prompt consideration of this request is appreciated.

Faithfully submitted,

BLACKWOOD & NICHOLS CO., LTD.

William F. Clark
Operations Manager

RE: *Unorthodox Gas Well Location, N.E.
Blanco Unit Well No. 424, 2075',
FNL - 1330' FWL, F-4-T30N-R7W,
Blanco Fruitland Coal Gas Pool, San
Juan County, New Mexico.*

Dear Mr. Carr:

Your letter of October 27, 1989 does not address the reason why original Administrative Order NSL-2634, which approved this well location at 2100' FNL - 1330' FWL, is insufficient and requires this well to be moved.

Thank you for your cooperation.

Sincerely,

A handwritten signature in cursive script, appearing to read "Michael E. Stogner".
